### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### *Current Status*

1. This action is responsive to Applicants' amendment of 7 July 2008.
2. Receipt and entry of Applicants' amendment is acknowledged.
3. Claims 1-5 are pending.
4. The 112 rejection is withdrawn following Applicants amendment.
5. The rejection of claims 1-5 under 35 U.S.C. 103 as being unpatentable over Hunt et al., {US 2,776,996} in view of SUMITOMO CHEM. COMP. LTD, {GB 1,166,961} for the reasons set forth in the previous Office Action of 01/07/2008 is maintained.

Applicants' argument and amendments filed 7 July 2008 have been fully considered but they are not persuasive because Applicants claimed process is obvious in view of the prior art references cited. Applicants' argument is based on the fact that the prior art employed different concentration of acid-base catalysts. It should be noted that merely modifying the process conditions such as concentration is not a patentable modification absent a showing of criticality. *In re Aller*, 220 F. 2d 454, 105 U. S. P. Q. 233 (C. C. P. A. 1955). Additionally, Applicants argue that their process yield unexpected result. That is, less by-product and higher product yield. However, comparative example 1 in Applicants specification shows the contrary. Also, Applicants failed to provide a side-by-side comparison of their process and that of the prior arts process. The submission of this data would make Applicants' argument convincing.

**THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
